

Ambassador Nishimaki's visit to JOCV Overseas Cooperation Volunteer (JOCV) at Erongosig Primary School (August 9th, 2024)

2024/8/9

On August 9, 2024, Ambassador Nishimaki paid a visit to Ms. Aoi Yoshino, a JOCV teacher at Erongosig Primary School in Erongo Region. Ms. Yoshino teaches mathematics, arts and IC, and is also in charge of the after-school mathematics club. During the visit, Ambassador Nishimaki observed a mathematics class taught by Ms. Yoshino. More than 160 JOCVs including Ms. Yoshino have been dispatched to Namibia so far, and the activities of JOCVs contribute to strengthen the amicable bilateral relations between the two countries. In addition, one classroom building was constructed at the Erongosig Primary School through the FY2010 Grant Assistance for Grassroots Human Security projects (GGP), and this visit was also an opportunity to confirm that the classrooms provided by Japan are being used appropriately. Since 1997, the Japanese government has constructed about 300 classrooms in Namibia through GGP.
