

Donated vegetables by Moreson Special School and their use at Ambassador' s residence dinner (20 August 2025)

On 20 August 2025, the Embassy of Japan received a donation of vegetables from Moreson Special School where Mr. Katsutoshi Tomita, a JICA Overseas Cooperation Volunteer, serves as a teacher at the school. The donated vegetables were grown by the learners as part of an agricultural classes led by Mr. Tomita. The vegetables were prepared by Mr. Yasuaki Kariya, the official residence chef, and served during a dinner hosted by the Ambassador in that evening. Serving vegetables grown with care by Mr. Tomita and the learners at the Ambassador' s residence contributes to strengthening the amicable relationship between Japan and Namibia.
