

Equipment Handover Ceremony at Rundu Vocational Training Center, Kavango East Region (2 October 2025)

On 2 October 2025, Mr. Noriaki Sadamoto, Deputy Head of Mission of the Japanese Embassy, attended the equipment handover ceremony for industrial human resource development training at the Rundu Vocational Training Center (VTC) in Kavango East Region. With the handover of training equipment and manuals, the Rundu VTC will now be able to offer Employability Improvement Training (EIP) to vocational trainees. In the same week, JICA collaborated with the Namibia University of Science and Technology (NUST) to provide the same training equipment to the Eenhana VTC in Ohangwena Region and the Okakarara VTC in Otjozondjupa Region.

Since 2018, the Government of Japan has been implementing the "Industrial Human Resource Development Project" in cooperation with the NUST through JICA. The Industrial Human Resource Development Project aims to equip students with skills that can make them immediately effective in the workforce, thereby enhancing employability and productivity in the workplace.
